525 MILES
OF THE
UNION PACIFIC RAILROAD
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

THIS BRINGS THE LINE TO THE EASTERN BASE of the Rocky Mountains and it is expected that the track will be laid thirty miles further to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* as security, and receives payment to a large if not to the full extent of its claim in services. These bonds are issued as each twenty mile section is finished, and after it has been examined by the United States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots, repair-shops, stations, and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

EARNINGS OF THE COMPANY.

At present the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a *Government Work*, built under the supervision of Government officers and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

FIRST MORTGAGE BONDS

are offered for the present at **90 CENTS ON THE DOLLAR,** IN U. S. CURRENCY, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

SIX PER CENT. IN GOLD,

or over **NINE PER CENT.** upon the investment. Subscriptions will be received in Portland by

A NEW PAMPHLET AND MAP showing the Progress of the Work, Resources for Construction and Value of Bonds may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

LETTER FROM WASHINGTON CITY

METROPOLITAN HOTEL
WASHINGTON D. C. Jan 19 1868

EDITOR OREGONIAN

On the 30th of November I left this city for Richmond, Virginia, with the intention of making an extended tour through the Southern States for the purpose of ascertaining the political needs of the loyal people, in order that assistance might be given from the party in the North to aid in reorganizing those States and getting them back into the Union. I passed through Virginia, North Carolina, South Carolina, Georgia, Alabama, Louisiana and Mississippi, and made a pretty thorough investigation into the situation of the Union party in those States, and particularly as it relates to the Presidential question, and I will at an early day lay such information as I may have obtained before your readers; but on returning to this city, I find that there are some matters local to the State of Oregon, which will receive attention first.

The published reports of the proceedings of Congress give you an idea of what our Senators and Member are doing by way of legislation for your State. Still a brief summary may not be amiss in a letter of this nature. You will see that our representation in Congress is scarcely inferior to that of any other State, except in point of numbers in the House, and for industry on the part of the representative, she is certainly not behind any other State. Our Senators occupy leading positions on leading Committees, and discharge their duties as faithfully and creditably as those who have had much greater experience, and the people of Oregon will bear in mind that the field for the display of ability is not so great in Oregon as it is in older States, because the productions and commerce of the older States are more fully developed, giving rise to a more complex state of society and bringing forward numerous questions of a complex nature to be settled by legislation. The number of inhabitants and wealth of Oregon are not equal to some counties in the Eastern States, and the amount of legislation is alike limited. Hence our Senators and Member must learn these wants of other States and take part in regulating the laws for them. This will in a great measure account for the limited number of bills introduced into Congress relating to Oregon affairs.

Among the bills introduced by Senator Williams I will call attention only to such as I remember at present. One for the relief of Goldsmith Brothers, of San Francisco and Portland, Brokers, which was referred to the Committee on Claims and will be reported favorably, and doubtless go through.

A bill for aid in the construction of a wagon road from Horse Plains to Cabinet Landing on the Pend d'Oreille river, Montana Territory, which seem to be favorably received, and is now in the hands of the Committee on Territories.

A bill has been introduced to establish a Collection District in the State of Oregon, which was referred to the Committee on Commerce, which in turn referred it to the Secretary of the Treasury, who sent it to Senator Corbett for information. There is some probability that it will pass. A bill to grant land to the State of Oregon for a military road from Coos Bay to Roseburg, Oregon, which is now before the Committee on Public Lands and will go through. A bill to vacate and sell the Umatilla Reservation, which is before the Indian Committee with but little prospect of a favorable report. A bill extending the time in the grant of lands given to aid in the construction of the California and Oregon Central Railroad, which was referred to the Committee on Public Lands, and will doubtless pass without much delay. A bill establishing a Post Route from Express Ranch *via* Rye Valley to Humboldt Basin; another from Brownsville, Liansevsaty, *via* Peoria, Corvallis, Renders Mill, King's Valley and Pioneer to Yaquina Bay; another from Dalles, Ogn., *via* Rockland, Black House and Simcoe to Yakima, W. T.; and another from Portland *via* Bridgeport and Chehalem Gap to Dayton; and still another from Albany *via* Boston Mills to Brownsville.

Among the general bills introduced by Williams I may mention the bill making appropriations to supply the deficiencies in the appropriations for the fiscal year ending June 30, 1868. He is also pushing forward the bill for the relief of W. L. Adams. The bill was referred to the Committee on Claims, and by them referred to the Secretary of the Treasury, who has placed it in the hands of McKee, Special Agent of the Treasury Department for the Pacific Coast. The resolutions embodying his views on finances and the Indian policy of the Government, you will doubtless receive and publish ere this reaches you. He has quite a large number of bounty claims which he is pressing for payment, though the Comptroller has decided against them, and there is scarcely any prospect that they will be paid. Besides these there are many private claims demanding attention, all of which are promptly attended to.

Senator Corbett has introduced a bill to establish a mail route from Corvallis to Yaquina Bay, and is making an effort to get the Secretary of the Treasury to order and provide for the survey of that bay. He is also trying to prevail upon the Secretary of the Treasury to place a steam revenue cutter at the Mouth of the Columbia River to replace the present condemned vessel. He is also endeavoring to get a change in the time of holding the United States District Court and to increase the salary of the District Judge to five thousand dollars and compel two terms of court at Roseburg, and he is also making an effort to get a better place for holding court at Portland than the upper floor of Stark's building. He contemplates asking for an appropriation for the erection of a post office building at that place in which United States Courts may be held and to furnish offices for other government officers. There have been quite a number of Indian War claims of 1855 and '56 sent to Corbett, and he found many not heretofore acted on in the Third Auditor's office and immediately secured an additional force of clerks to examine them. They are mostly claims for lost horses etc. The reports published through the press dispatches will indicate that Corbett has taken a leading position in the Senate on the question of the finances, the most difficult question that the country now has to deal with. His speech on the repeal of the cotton tax, delivered on the 20th ult., and on his amendment (to Sherman's bill) providing for the funding of the five twenty bonds into 5 per cent. stocks due in forty years and redeemable any time after twenty years were very creditable efforts and elicited many flattering compliments not only from Senators and Members, but also from leading business men.

Mr. Mallory is also hard at work, and has introduced bills for the relief of the heirs of Geo. Harris and for Darius Evans and others which will pass. Also, a joint resolution to authorize mail contractors on the Pacific coast to draw their pay in San Francisco, which was referred by the committee on Postoffices and Post Roads to the Postmaster General, who decided that it could not be done. It will probably fail to pass. He had also introduced a bill similar to the one introduced into the Senate by Williams for an extension of the time for building the California and Oregon Central Railroad, which is before the Pacific Railroad committee and will get a favorable report. Also a bill to change the time of holding elections for Members of Congress, making a uniform time for holding such election throughout the country. It is before the committee on Elections and has a good prospect of favorable action. Should this bill pass the election for Member of Congress in Oregon would be postponed from June till later in the year, probably November.

Mr. Mallory has also a financial scheme which he will introduce in a day or two, in which he proposes to give the Government authority to go into the market and buy its gold bearing six per cent. bonds with legal tender currency, at the market price, instead of contracting the currency. Also to use the extra gold in the Treasury with which to buy these bonds; and thirdly to negotiate a four per cent. loan to run fifty years and use the money thus realized to further buy up six per cent. bonds now held. I hope to discuss these financial matters more fully in a future letter.

Last Friday, the 17th inst., Mallory introduced Pengra's bill providing for the construction of a railroad from Portland to the Central Pacific Railroad at the northern terminus of the line in Nevada. The bill provides for a grant of lands similar to that granted to the Union and Central Pacific and a subsidy of $16,000 per mile on all the road except through the Cascade Mountains, where it is $32,000 per mile for a distance of eighty or a hundred miles. It does not specify at what point the road is to cross the Cascade Mountains, leaving it to those who build the road to select the route. I see that the people of Southern and Eastern Oregon oppose this route; also the people of Portland, they preferring that the road from Portland to Sacramento, and the one from Salt Lake through Idaho and down the Snake and Columbia rivers, should be built. But there is no use of kicking against the pricks, as no other road can at present get a charter and subsidy, or even a grant of lands.

On the 13th instant, Mr. Holbrook, of Idaho, introduced a bill in the House for the Salt Lake and Columbia river route, and after giving himself the usual swell and [illegible], it was sent by an overwhelming vote to its grave—the Committee on Public Lands. The bill had [illegible] Gen. Dodge, of Iowa, chief engineer of the Union Pacific road, as a union road [illegible], and had the approval and support of Oakes Ames and all those men. The opposition to this bill [illegible] those opposed to granting public lands [illegible] to any enterprise, combined with the [illegible] Northern Railroad folks, both of whom are [illegible] hostile to the Idaho route. But [illegible] introduced his bill he saw quite a [illegible] members and so did Pengra, [illegible] cured the support of the Central and Union [illegible] influence of the House, and as a [illegible] was sent to the Committee on Pacific [illegible] majority of whom are favorable to the bill. [illegible] any one supposes getting a railroad [illegible] Congress is an easy thing to [illegible] it once. I have now been in this city [illegible] during which time I have explained [illegible] route to at least half a dozen [illegible] times that number of members, which [illegible] talked with a great many more than [illegible] Corbett and Mallory have also been hard at [illegible] yet we have only the bill introduced [illegible] just begun. Nearly every Senator [illegible] must be actually educated on the subject [illegible] his condition of mind and surroundings [illegible] carefully studied in order to [illegible] him. Besides, all the outside [illegible] as well as political [illegible] must be carefully [illegible] consideration [illegible]

After a careful canvass thus far [illegible] demonstrated to those who will [illegible] to build the road as well as [illegible] and secure the [illegible] in Congress [illegible] route could at the same time [illegible] advantages and conflict with the [illegible] none. It at the same time [illegible] for Oregon to California [illegible] it benefits California [illegible] Railroad and supplies Nevada with [illegible] wood, and opens the trade of the [illegible] and Oregon, and brings it [illegible] and a able Oregon to supply [illegible] of Idaho and Nevada in [illegible] fecting with California, besides [illegible] road to construct. I trust that [illegible] Oregon will not be so short sighted [illegible] the least obstacle in the way of [illegible] road, but aid it all they can, and [illegible] first successful step toward [illegible] great State.

During the [illegible] the Democratic party [illegible] under military auspices in Tennessee [illegible] and Arkansas. So late as [illegible] Democratic members of both Houses [illegible] tested and voted [illegible] and Representatives from [illegible] a unit on this question. But they [illegible] to think that the governments which they [illegible] pudiated is the only lawful government that [illegible] exist in Louisiana, and [illegible] up arms in its [illegible] In [illegible] Johnsonian governments of the South [illegible] go [illegible] be forgotten.

1. They, with the exception of Texas [illegible] not framed new constitutions, but have [illegible] affirmed and adopted the constitutions [illegible] these States during the [illegible] amended [illegible] as the President [illegible] ed should be made.

2. The question whether there should be a convention to re-enact their old constitutions [illegible] and the same, was [illegible] to be voted upon.

3. The re-enacted constitution and the amendments thereto were never submitted to the people for approval, for the reason that it was [illegible] and known that the people would reject it, because they abolished slavery and [illegible] rebel debt.

4. No portion of the people, whether loyal or rebel, has ever, in any form known to law or custom, or known to the [illegible] der which these governments profess to [illegible] an opportunity of expressing a consent to be governed in that way.

5. These constitutions all distinctly [illegible] way for their own amendment utterly inconsistent with the mode adopted by the Johnson [illegible] tion, and hence all the amendments [illegible] abolishing slavery and repudiating the rebel [illegible] void and of no effect.

[illegible] Charges.

Our California dispatches have of late [illegible] ly made mention of the presentation of [illegible] to the Legislature of that State, asking for a reduction of fares and freight on the Central Pacific Railroad. It costs as much for travel and transportation by rail as it did in the old times of extravagant prices to travel by coaches or haul freight over difficult mountain roads. Of this state of things the Sacramento *Union* says:

If these charges are to be continued for the next two years, and in proportion all the way to Salt Lake City—six hundred miles—it is plain that the public will gain little by the railway save in the single item of time. Sixty dollars in gold for six hundred miles railway travel, it [illegible] to us can hardly fail to be as ruinous to the road as injurious to the traveling public. The same rates continued to New York city would more than double the present charges of the steamship lines. At such rates what [illegible] of our expectations of immigration from Europe and the East when the Great Pacific Railway shall have formed its connection at Salt Lake? It is a folly to talk about peopling this State by such extravagant means. The emigrants will take the water route, stay at home, or go elsewhere by cheap lines of travel. The road itself will suffer from want of business. It will cost more to freight our grapes, wines, fruits, and the teas and silks of China and Japan, on which trade we are in the habit of putting so much stress, than the [illegible] public can afford to pay for the articles. They will either do without them altogether or they will find their way to American markets by other routes.

[illegible] Abbott-Pendletonian Scheme.

The Albany *Democrat* is engaged with deep [illegible]. It is endeavoring to tell how the [illegible] debt can be paid, and its re[illegible] on the sub[illegible] are sufficient to fill the [illegible] with [illegible]. It says its "plan for paying the [illegible] is [illegible]larly like that of Mr. P[illegible] which is a[illegible] intended as a [illegible] to that [illegible]ssage. We quote from the D[illegible] the [illegible] of the "Abbott-P[illegible]":

Mr. McCulloch, in a statement he recently [illegible], says there are [illegible] hundred million of [illegible] in [illegible]. The Secretary also says that the [illegible] the Government [illegible] one hundred millions—making an aggregate of $[illegible]. On this part of our [illegible] debt we pay no interest. The Radical policy is to [illegible] these [illegible] backs to assume the [illegible] bearing six per cent gold interest. Mr. P[illegible]'s policy is, to let them alone, let [illegible] just as they are and thus save paying $[illegible] annually as interest. He further [illegible] about $350,000,000 more of greenbacks [illegible] to purchase the United States [illegible] by the bankers, with the Treasury as security for the National bank currency now in circulation. This policy would save over $20,000,000 [illegible] which are now paid as gold in [illegible]. He would thus save $[illegible] in gold; and this, converted into [illegible] would yield an annual debt-[illegible] one hundred millions of dollars. [illegible] hundred millions of greenbacks [illegible], and the Secretary of the Tr[illegible] has not [illegible] such a statement as is attributed to him. Of greenbacks and national [illegible] together, the [illegible] in circulation is [illegible] near seven hundred millions, something [illegible] half of which are greenbacks. The greenbacks are a part of the public debt, but the [illegible] of it. The [illegible] on which the latter are based [illegible] of the debt, and these bonds [illegible] the interest is paid on the [illegible] and yet the Abbott-Pendletonian [illegible] to save $18,000,000 annually in the [illegible] which is not paid, as a fund with [illegible] the public debt! It proposes [illegible], to save $20,000,000 annually which is paid [illegible] as interest on the bonds for the [illegible] of the national bank currency in [illegible]. That is, it would cause greenbacks to [illegible], and the holders of the bonds forced to take this [illegible] bearing security in place of the interest bearing bonds which they received in [illegible] from the Government. Three hundred and fifty millions of the debt would thus be [illegible]ged from bonds into greenbacks, an act of [illegible] as a thing more than $20,000,000 a year [illegible] is now paid as interest would be [illegible] to the Government; and with this money, [illegible], the Government is to go into the market to buy greenbacks to convert the rest of the debt in this manner. The [illegible] when cleared of its crudities, amounts simply to this: That the government shall stop [illegible] on a large portion of its debt, and with [illegible] thus "saved" buy up greenbacks at 140 to "pay" off the remainder! The Oregon [illegible] in this sch[illegible], after expressly declaring for the further [illegible] of $350,000,000 in greenbacks, says, near the close of his article, that the plan "[illegible] the [illegible] of a single dollar more of [illegible]." It is clear that the *Democrat* would do well to stick to its specialty, "negro equality," and let [illegible] alone.

WALLA WALLA.—A correspondent writes us from Delta (February 4th,) that the snow there at that date was about six inches deep. About the 10th of January the mercury fell to four degrees below zero, which was the coldest weather [illegible]. The tri-weekly mail to Missoula has not missed a trip this winter. Snake river was fro[illegible] so that it was safe crossing on the ice. S[illegible] had perished in Walla Walla valley, and it was feared that considerable numbers would die, even if warm weather should soon return.

The Port Townsend paper of the 13th inst. furnishes the following additional particulars about the fire at the Bellingham Bay coal mines: "The first fire had, it was supposed, been put out, and the [illegible] had worked nearly a week when they again reported the mine on fire. Bulkheads were built in the tunnels to smother the fire, but they were immediately broken through. Mr. Myers, the Superintendent, fears the mine is lost. There is coal enough at the mine to load the vessels now th[illegible] the *Nestor*, *Amethyst* and *Torrent*."

A Union Grant Club was formed at Harrisburg. The officers are: James Keeling, President; Alex. S[illegible]ville, John M. Waters and A. J. Wigle, Vice Presidents; H. C. McFarland, Secretary, and J. W. Be[illegible], Corresponding Secretary. Regular meetings are held on the 1st, 2d and 3d Friday e[illegible]ings of each month. The Union men of Linn county will give a good account of themselves in the approaching canvass.

A. C. Ripley, Esq., writes us from Camp Harney, (Feb 2,) that the winter since January 1st has been very severe in that section. At the day of writing, the snow was two feet deep. On several occasions the mercury had fallen as low as 17 deg. below zero

Bereaved Mourners

Sidney E. Howard, a prominent Democrat of California, the same who lately published a pamphlet on bribery in the Legislature of that State, some days ago published a political essay in a Democratic newspaper which is harrowing up the feelings of the worshippers of slavery, in the most dreadful manner. We quote a single paragraph:

In the nature of things, slavery was an institution which could not endure. It was foredoomed by great physical and moral causes. It was doubtless a powerful, and if we may so say, colonist in the early settlement of this country, and a potent agent of civilization. It is, however, an instrument of a lower order of civilization. It is, behind the spirit of the age. The laws of an advancing population and progress constantly crowded upon it, and pressed the end. Our conclusion is that at some period it must have ended in violence, and that, after all, it has perished with as little violence and shock to society as was to be anticipated. True, it has cost hecatombs of most valuable lives and millions of treasure, but, after all, the result is marvelous and glorious, and we should rejoice that we have lived to witness it in this age. Instead of abusing each other for the means that brought about the result, should we not see in it the hand of an all wise Providence, and endeavor, as soon as possible, to heal the wounds and extinguish the flames which it has left behind?

Such heresy as this is more than the *Examiner* can endure. That paper, as the organ of the simon pure, bed rock Democracy, who have always believed in the divinity of slavery, attacks the writer with the old political weapons of its party, and declares its inability to understand how a person "who had been a life long supporter of the 'peculiar institution'—who advocated the extreme Southern view of that question—who was understood to be bitterly opposed to the Abolition war for its overthrow, could conceive, much less publish, such a document." It is clear that such liberal and philosophical views as are put forth by the writer of the essay, are completely beyond the comprehension of the *Examiner* and three fourths of its party; that they are sincere mourners for the "lost cause," and for slavery which was its corner-stone, and that they will never cease to deplore the overthrow of that idol, or to wish in their secret hearts that it could be restored to the place in the temple of "Democracy" from which it was torn by unhallowed "Abolition" hands.

HIS USUAL ARGUMENT.—As Beriah Brown had been either covertly insinuating or openly asserting for a year past that Judge Deady writes, dictates or suggests editorial articles for this paper, we took occasion two days since to refute the statement, on Judge Deady's authority and behalf, as well as our own. Whereupon Brown retorts in his usual manner by calling both parties "liars," and thinks that this "argument" settles the whole matter.

In his paper of yesterday, Beriah Brown says: "We have never alluded to Judge Deady's (alleged) connection with the OREGONIAN in any more direct terms than those used on this occasion—'the highest legal talent in the State.'" Not a month ago he spoke of Judge Deady *by name* in this connection. This Brown is the creature who seeks a controversy with gentlemen by calling them "liars."

FROM IDAHO.

The following items are condensed from the Owyhee *Avalanche* of February 1st:

Yesterday morning Wells, Fargo & Co. shipped below by stage $40,000 in bullion, which, added to $110,000 mentioned last week, makes $150,000 shipped from and produced in Owyhee during the month of January.

A premature explosion of a blast occurred yesterday forenoon in the Golden Chariot mine, by which two brothers named Baldy were seriously, but we are happy to learn, not fatally injured. One of them had his bosom and face fearfully burned, and the other was considerably injured, but under skilful treatment their early recovery is anticipated.

It is to be regretted that the report has gone forth that the Iowa Company, in Flint, has failed. It is true that the company has not been as successful in their operations as could have been desired. But nothing has transpired as yet to warrant the assertion of a failure, as regards future operations, etc; although it is true that parties have levied attachments amounting to $20,000 on the mill and other property. We learn from reliable sources that the financial embarrassments of the company will soon be relieved, the Dodge Crusher taken out of the mill and stamps put in its place, which being done, instead of a failure, we shall have the pleasure of proclaiming ultimately the success of the Iowa Company's mining operations in Flint.

Work is going on lively at the Oro Fino. In the south drift the ledge is now five feet in width and getting richer. Owing to the want of shoes and dies, the Morning Star mill is not running, but the Cosmos mill is constantly running on Oro Fino ore.

Work is being vigorously pushed forward night and day on the Ida Elmore, and ore of marvelous richness is being taken out. It is estimated that each load of quartz (weighing about 10,000 pounds) hauled from this mine, yielded over $1,000.

We noticed this week in the ore house at the Golden Chariot mine, a pile of ore all sparkling with gold and streaked with silver. Work goes on night and day, and the ledge appears to be come richer the deeper it is worked.

The Rapidan is being worked, as is also the Omega, two ledges that were discovered late in the fall. The boys are getting out ore rich in gold and silver from both of these mines.

The Calaveras mine prospects well, and we understand that preparations are being made to work it on an extensive scale.

Columbia County Union Club.

A Union Club has been formed at St. Helens, the members of which are very actively at work. B. M. Watts is President of the Club, and W. B. Daniels Secretary. At a late meeting, the following preamble and resolutions were adopted:

WHEREAS, Treason in arms, and its subtle ally in the forum and at the elections, in the national and State capitols of the Republic, for four years sought the life of the nation openly and covertly, thereby bringing upon us the many evils of which we complain; and,

WHEREAS: The disciplined valor of the defenders of Liberty and the co-operation of their friends at home have saved the Government from utter ruin; therefore,

Resolved, That it is not the best way to cure the great evils which have befallen our country to place in power by the ballot the men who produced them, thereby making Treason respectable and Loyalty odious; that the memories of the nation's brave defenders, living and dead, must not thus be outraged.

Resolved, That such a result would be the greatest calamity that could possibly befall our country, and reflect the most blighting infamy upon it to be found in the history of any people.

Resolved, That in order to avert such danger we will contribute our influence to keep out of power these destructive elements of national and State suicide, heretofore and at present existing in the party organization called the Democratic.

The Hamilton *Telegraph* announces the death at Darrtown, Butler county, Ohio, on the 10th of January, Mrs Nancy Cooley, at the age of 108 years and 17 days. She was born in Virginia in December, 1759, and emigrated to Kentucky while still young. She married there William Cooley, who had been a revolutionary soldier. They removed to Ohio when it was a wilderness, settling upon the banks of Four Mile Creek. Her husband, who was familiarly known as "Uncle Billy Cooley," was never known to owe a man a dollar, never allowed any one to become indebted to him, and would not receive paper money for any of the products of his farm. His wife, who long survived him, resembled him in the fact that she never contracted a debt. Mrs. Cooley received a pension during her life on account of her husband's services in the revolution. She leaves no descendants, and it is not known that she had any relatives in Ohio.

EULOGISTIC EXTRACTS.—The patriotic and irrepressible "Brick Pomeroy," in a fit of disgust at the suggestion of Sherman's name as the Democratic candidate for the Presidency, thus relieves his feelings "And such a candidate! Sherman—William Tecumseh Sherman—Vandal Sherman—Sherman of the torch and axe—Sherman, prince of a band of bummers, thieves, vagabonds and ruffians—Sherman, whose 'march to the sea' would have damned to all eternity a legion of pirates and freebooters—Sherman, the lackey, tool, lieutenant of the Sangamon brother of the devil, the obscene, brutal and boorish Lincoln—Sherman, whose hands are red with the blood of thousands," etc., etc., through half a column more of the same sort.

[DISPATCHES TO THE OREGONIAN.]

DATES TO FEBRUARY 17.

Congressional.

WASHINGTON, Feb 17.—In the Senate, the Chairman announced that Senator Johnson was unwell, but desired to vote on the admission of Thomas. The vote was postponed till to-morrow.

Dixon presented a memorial from several Generals, that the Secretary of War be directed to appropriate large cannon to erect a monument to General Sedgwick.

Sumner presented a memorial from German citizens asking an amendment to the Constitution abolishing the office of President on the ground that it is a tyranny, and transferring the President's duties to a Commission to be appointed by Congress. Several petitions were presented and appropriately referred.

Trumbull, from the Judiciary Committee, reported a substitute for the House bill, providing that a majority of the votes actually cast at the position of the rejection or acceptance of the Constitutions of the Southern States shall decide the question, and that any person duly registered may vote in any State in which he has been registered.

Trumbull introduced a bill, which was referred to the Judiciary Committee defining the jurisdiction of the courts of the United States. It declares that all courts, in the administration of justice, shall be bound by the decisions of the political department of the Government, and that in political questions it rests with Congress to declare what government is established in any State. It further declares that no government, Republican in form, exists in the ten rebel States, and that no civil governments in either of said States shall be recognized as valid or legal by a State government, neither by the executive or judicial power of the United States, until Congress shall so provide, or until such State shall be represented in Congress. It further affirms that the reconstruction acts are political, and that no judicial tribunal is competent to question their politics. The Supreme Court is hereby prohibited from taking jurisdiction of any case growing out of the execution of said acts in either of said States, until said States are represented in Congress, or until Congress shall recognize the State government as Republican in form. All such cases pending in said court shall be dismissed, and all acts authorizing appeal, or writ of error, or *habeas corpus*, or any other proceedings, being before said Supreme Court for adjudication, and any case, civil or criminal, or any other proceedings arising out of the execution of said reconstruction acts or authorizing an appeal from the Circuit Court in *habeas corpus* proceedings to the Supreme Court, or which authorizes the Supreme Court to issue writs of *habeas corpus* now being before it for revision or any judgment of a lower court in *habeas corpus* cases, are hereby repealed.

Wilson reported from the Military Committee a bill for the gradual reduction of the army and to discontinue unnecessary grades there.

Edmunds, from the committee on Judiciary, reported a bill relating to the presentation of bills to the President with a request to return the same.

The Senate considered the resolution for the admission of Thomas of Maryland.

Cole spoke in favor of the admission of Hendricks, of Indiana.

In the House, a large number of bills and joint resolutions were introduced and referred, including one to establish a Branch Mint in Montana.

Bingham introduced a joint resolution declaring that "Whereas a large majority of the votes cast at the late election in Alabama favor the Constitution submitted by the Convention, and whereas certain combinations of persons refused to vote, with intent thereby to defeat the friends of the Union endeavoring to restore said State to its proper relations to the Union, therefore,

CHAS. DICKENS' READINGS are creating quite a sensation in the Atlantic States, the proceeds of which are so enormously large that that popular author refused the sum of Twenty-five Thousand Dollars to come to San Francisco—and yet the people of Oregon continue to buy their clothing and dry-goods at the best and cheapest house in the State, which, of course, is at KOHN & FISHEL'S.

Buchtel's Photograph Gallery is the *only* establishment in Oregon that is thoroughly prepared to do *all the different styles* of work in the art. Photographs from card to life size. *The new cabinet cards, &c., &c.* Small pictures enlarged (retouched in India ink—painted in water-colors or oil by Mrs. S. J. Rumsey. I have now on hand a very large collection of negatives, the names of which are recorded alphabetically in a book for that purpose that can be seen in the reception room.

AN OREGON INVENTION.—Some months ago, notice was taken by the papers here, of an invention by Mr. John Nestor, Architect, of this city—A Weather-Board Hook and Combined Carpenter's Tool. The *Scientific American* of Jan. 18th, has cuts illustrating the tool and an article fully describing it, together with a favorable notice under the head of "Recent American and Foreign Patents." The latter says: "This invention consists in an improved form of Weather-Board Hook, in combination with a fluid level, graduated rule, marker, and gage, the whole constituting a carpenter's combined tool, of great utility and convenience." Mr. Nestor obtained a patent for the instrument, issued Dec. 31st, 1867. It is about twelve inches long, one inch in thickness and from one to two inches wide. The back, front and one side are covered with a smooth brass plate. The sides and back are perfectly straight. The middle portion of the front for about seven inches is also straight and parallel to the back. This is terminated at either end by the perpendicular walls of two shoulders. In the centre of this side (the inside) is set a spirit level. The back of the instrument is a scale or rule, graduated in inches and their fractions. A slide gage may be moved back and forth along this graduated scale in the slot by a screw, turned by a thumb knob at the end. This forms a very accurate and convenient spacing gage for laying out the work. The side has a long groove in the brass plate in which a marking knob slides. This knob carries a knife or blade for marking or cutting across the boards when the instrument has been placed in position. Everything about it is calculated to work with great accuracy and the combination avoids the necessity for the use of several separate tools, as every carpenter will see by the above description. It is an invention which will undoubtedly come into general use, as its great convenience and comparatively small cost, will recommend it at once to every workman. Mr. Nestor has entered into arrangements with a tool making establishment at the East, for the manufacture of a great number of them, so that it will not be long till the trade will be fully supplied. The inventor has undoubtedly "struck it rich," and we congratulate him, both upon his prospective good fortune, and the fact that his invention is one more added to the [illegible] list of useful Oregon inventions.

SAN FRANCISCO MARKETS.—From the *Times* of the 13th received per steamer *Ajax*, we clip the following paragraphs concerning the produce markets:

Since our last weekly reference the market for breadstuff seems to have lost its vitality. The advanced state of the season and the prevailing high rates of Flour and Wheat have, notwithstanding the abundance and low freights ruling, caused a cessation of an export inquiry. We do not think there are any export orders for Wheat now on the market.

Flour—The market is dull. Jobbing sales only at $8 @8 25 for best Extra; Superfine, $7@7 25. Sales 4,000 bbls export are reported for export at $7 75@8.

Wheat—Market is unsettled, with more sellers than buyers. 700 sks milling sold at $2 70; 500 sks choice $2 65; 3,000 sks common milling, $2 50.

Fruit—During the past week the brig *Admiral*, from Coos Bay, brought 2,000 boxes Apples, but choice varieties are scarce in market, owing to the Columbia river being closed with ice, which prevents any supplies from Portland, although large quantities are now waiting transportation. The following wholesale prices are furnished by F. W. Gale & Co.; Apples, choice, $2@3 ℔ box; do common, $1@2. Pears, Easter Beurre, $2@2 50; Pound, $1 50@2. Lemons, Malaga, $10@12 ℔ box; Los Angeles, $30@40 ℔ M. Limes, $35@40 ℔ M. Dried Apples, 8@9c ℔ ℔. Dried Peaches, 8@9c. Dried Plums, 12½@20c. Dried Pears, 10@15c ℔ ℔.

EXCITEMENT IN CHINADOM.—Yesterday afternoon all the Ah Kows, Foo Kings and Whang Doodles of Chinatown, Alder street, were in great commotion over the receipt of some piece of news from His Imperial Highness, Moon Eye, Emperor of all China, or from King Josh or some other man—the authorship of the dispatch being somewhat uncertain. At all events, the celestial brethern and sistern were in a state of great excitement and were engaged in "heap make fun." Multitudes of them were going to and returning from the Josh House, everybody talking, everybody laughing, everybody gesticulating and everybody raising a devil of a rumpus, generally. Half a dozen of them, being interrogated as to the cause of their state of beatitude, gave out less than half a dozen different explanations, thus putting the whole affair into a muddle so intricate that the united efforts of a local reporter and a police [illegible] utterly failed to unravel it. In the classic Chinook, it was a case of *hyas klonas*.

ARRIVAL OF STEAMERS.—The steamship *Ajax* arrived at St. Helens about 4 o'clock Monday evening, where she anchored in the stream, and is now delivering freight to the *Cascade* and *Julia* of the O. S. N. Co's. line. The *Fideliter* arrived at this city yesterday afternoon, three days from Victoria. The *Cascade* which went down on Monday to meet the *Ajax*, returned yesterday morning with the steamer's passengers, express and mails and about two hundred and fifty tons freight, including mails and passengers' baggage. The *Julia* went down immediately for another load. The *Ranger* from Astoria, arrived about 1 o'clock yesterday morning with the last detachment of the *Oriflamme's* passengers. She floated off the island about 8 o'clock yesterday morning.

VICTORIA PAPERS.—We are indebted to Capt. Erskine for files of Victoria papers to the 15th. From the *Colonist* we learn the following: Vast fields of floating ice have passed New Westminster the last few days, bound out. From this circumstance it is believed that the river above will soon be open. Snow has fallen for several days at the capital.....Two more buoys have disappeared from the Sandheads and are supposed to be now on their way to China.....The schooner *Crosby* has been chartered to carry a cargo of Oregon produce to Victoria for Mr. J. R. Stewart.....Business is reviving at Nanaimo. The ice has disappeared from the harbors of Nanaimo and Cowichan.....Bartholomew is giving lessons in horse taming on the Rarey plan.

CIRCUIT COURT—UPTON, JUDGE.—Proceedings of Tuesday, February 18th:

R. Cruikshank vs. S. A. Douglass; verdict of jury for defendant; motion for a new trial filed.

J. [illegible] vs. the City of Portland; action to recover $250 [illegible] for [illegible] upon small pox patients; case submitted to jury; verdict for plaintiff for $146 82.

State vs. Isaac Wagner; Grand Jury returned not a true bill.

Jas. A. Dorris vs. the O. S. N. Co.; action for collection of $400 for loss of goods, etc., in transit to U[illegible] by d[illegible] submitted to jury.

REMONSTRANCE.—Mr. J. B. Price was yesterday circulating a remonstrance against the proposed improvement of the road between East Portland and Switzler's Landing, as prayed for by the petition circulated by Mr. Schwabey. The remonstrance objects on the ground of the onerous taxation the improvement will entail upon the county, the impracticability of building the bridge and keeping it in repair, on account of floods, and the general inutility of the scheme. The paper has the signatures of quite a number of heavy tax-payers, among whom are several whose names may be found on the petition, who have signed the remonstrance as they remark, "after consideration."

U. S. CIRCUIT COURT, DEADY, JUSTICE.—Proceedings of Tuesday, February 18th:

J. R. Lamb et al vs. L. M. Starr et al; exceptions to answer of defendant, Starr, overruled.

United States vs. H. W. Davis et al; on motion of acting District Attorney, and upon reading a telegram from the Attorney General, it is ordered that the Marshal return the execution heretofore issued in this case.

James Field vs. Ida Squires; in this cause complainant has further time in which to file amendments to the bill herein.

NORTH PORTLAND MILL.—Preparations are in active progress by Messrs. Estes & Stimson for the erection of their lumbering mill near the gas works. Some of the timbers are already on the ground. We are informed that the [illegible] on the river side are to be fixed by driving piles. A contract was entered into on Monday, by the Willamette Iron Works, for the construction of a powerful boiler and engine for the motive power.

CLOTHES LINES ROBBED.—Clothes thieves are about again. Monday night a line on the premises of Mr. Jos. Buchtel, was robbed of about $40 worth of clothing—all sorts of articles of family apparel. The same night two or three other lines in the same neighborhood were robbed of lesser quantities of family clothing. It would be well to keep a sharp look out for the scoundrels and, if detected, to give them a warning with a shot gun.

INDIGNATION.—It was stated to us yesterday that several of the prominent shippers of this city have resolved not to ship per steamer *Ajax* anything but such freight as cannot be kept back. The reason assigned is the onerous tax which the advanced freight levies upon produce. The [illegible] at San Francisco, and there can, of course, not be much inducement to ship at present prices of freight.

A LONG WINTER.—A private letter from Walla Walla dated the 10th inst., states that the people of that section have experienced much cold weather and have had a month's uninterrupted good sleighing. On the day the letter was written the "Chinook wind" was prevailing, with prospects of a general and immediate break-up. Bully for "Chinook."

PRODUCE.—Arrived per steamer *Alert* from Oregon City yesterday, 2,452 qr sks flour, 113 bbls beef, 276 boxes apples, 57 sks feed, 48 bags wheat, 30 sks barley, 10 dressed hogs, 9 gunnies bacon, and 6 boxes eggs. The *Oneonta* arrived last evening from Monticello with 110 bales hay, 7 dressed hogs, and 7 slaughtered deer.

WASHINGTON GUARD'S BALL.—The annual ball under the auspices of the Washington Guard, will come off at Oro Fino Hall on Friday evening. The arrangements, we are informed, are perfected for the best ball ever given by the company. We acknowledge the receipt of a complimentary ticket.

FREIGHT ARRIVALS.—The *Ajax* brought up over 900 tons freight, consisting of general merchandise consigned to this city. The *Fideliter* brings 54 tons coal, 30 tons shot and shell, and 230 packages merchandise, all consigned to this city.

ENGINE TRIAL.—The two steam Fire Engines belonging to Multnomah No. 2 and Protection No. 4, were out last evening for practice throwing water up and down First street from the cistern at the corner of Stark.

OPPOSITION.—The first trip of the opposition on the Willamette between here and Oregon City, was made yesterday by the *Ranger*, which is under charter to the new line.

FANNIE TROUP.—This steamer leaves at 9 o'clock this morning for the mouth of the Willamette river, and will go to the Washington shore, if practicable.

MAILS FOR THE DALLES.—The mails for the Dalles and Idaho will close at 9 o'clock this evening. The carrier will leave to-morrow morning.

THE GRAND JURY.—We learn that the grand jury in the Circuit Court, will complete its labors, probably today, and will be discharged.

A HEAVY MAIL.—The *Ajax* brought up over one hundred sacks of mail matter—enough for half a dozen dray loads.

OPPOSITION TO NEW YORK.—The advertisement of the North American Steamship Company, announcing the sailing of their steamships *Moses Taylor*, on the 25th inst., the *Nevada*, on March 5th, and the *Oregonian*, on March 25th, appear this morning. The prices of fares are not given, but the telegraph news is to the effect that tickets are sold at $50 per first cabin passage. At this rate it is about as cheap to go to New York by the opposition, as to stay at home.

SPARTANS, ATTENTION!—You are requested to meet at the office of R. E. Bybee this evening at 7 o'clock.

DR. C. W. COOL,
DENTIST.

THOSE WHO DESIRE FIRST-CLASS DENTAL SERVICES might do well to give him a call. He is making a NEW AND IMPROVED VULCANITE PLATE. The nature of his improvement consists in lining the entire concave surface with fine gold; it makes the plate twice as strong and one-third times thinner than the common vulcanite plate. It also prevents the acids of the mouth from touching the plate, and from turning it black, which is a common occurrence. One half of the common vulcanite plates turn black after being in use a short time, particularly where tobacco is used for smoking. His new style of plate admits of a very fine finish on the concave or palate surface. His office is the only place where such work can be had. The improvement is his own invention, for which he has received, December 3d, 1867, a patent from the United States Patent Office. He has been making this style of work for the last two and a half years, and has specimens of the work which can be seen at his office. This work has given satisfaction in every case.

MARTIN LUTHER once thought he saw the devil in his chamber, and threw an inkstand at his head. Had they had in those days AYER'S PILLS to exorcise all the devils that come from a disordered stomach, his laughable fright would not have become a matter of history.

DR. HOSTETTER'S STOMACH BITTERS should be in the possession of everybody in the mining region. As a preventive of various dangerous diseases to which the gold seeker is liable, it has no superior. While it is quite palatable even as a beverage, it is speedy and powerful in its effects upon the system. In all cases of diarrhœa, dysentery and the prevailing fevers consequent upon exposure, the Bitters will be found invaluable as a corrective. No man should enter upon the exposed camp life of a miner without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation fail to have recourse to the Bitters.—Sold by all druggists and dealers everywhere.

PERRY DAVIS' VEGETABLE PAIN KILLER.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS!

At this period there are but few of the human race unacquainted with the merits of the Pain Killer; but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone, unrivalled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become known in those far off places by its merits.

Manufactory Established in June, 1851.

STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

Each package bears the signature of G. VENARD.

HOSTETTER'S

CELEBRATED STOMACH BITTERS!

A Pure and Powerful Tonic,

Corrective and Alterative, of wonderful efficacy in Diseases of the

STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels;

Steadies the Nerves and tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or

PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it [illegible] in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present in all the ordinary tonics and stomachics of the day.

Political.

[illegible] CHANCES FOR THE PRESIDENCY.

[From the Chicago Tribune, Jan 22.]

The Chicago *Times* has at last yielded to necessity and formally announced that George H. Pendleton is its candidate for the Presidency. The *Times* says truly, that the only hope of electing a Democrat [illegible] is in the Northwestern States [illegible] that no man enjoys so much of the [illegible] part of the party in this [illegible]. He is the [illegible] of national [illegible]. He is a strong [illegible] State where the "Sons of Liberty" had an organization, but his popularity in the Northwest is nothing [illegible] with the enthusiasm which his name inspires in Kentucky. [illegible] Mr. Pendleton is the especial favorite of the followers of the lost cause. He can [illegible] the instant service of every surviving [illegible] of John Morgan's raid.

The [illegible] of the northwest have never yet had a bona fide candidate for the Presidency. Whenever the northern wing of the party have been allowed to elect a President the candidate had been taken from Pennsylvania, New York or [illegible]. Van Buren, Pierce and Buchanan were nominated and elected; but New York and Pennsylvania, and all New England repudiated Cass and Douglas, the only Western men who ever received the nomination. The northwestern Democracy are [illegible] to the candidate now. They [illegible] to their party, and they [illegible].

Notwithstanding the efforts Mr. Pendleton will not be [illegible]. The Democratic [illegible] and [illegible] bondholders of Wall street will [illegible] forbidden [illegible] Aug. Belmont, that fine specimen of Democratic quality, and his [illegible], expect to foot the bills of the campaign, [illegible] claim the right to name the candidate. [illegible] the nomination of McClellan [illegible] and it was not until he consented that [illegible] entitled to occupy the second place on the ticket. Mr Belmont, and the moneyed interest represented by him, [illegible] Pendleton. They want no man from beyond the Alleghanies. They want a man through whom they can control the financial policy of the country; and such a man they will have. [illegible] is not Pendleton by any means. Small as his chances are, Andrew Johnson's [illegible] for the Democratic nomination for [illegible] are far better than Pendleton's.

HANCOCK NO MAN FOR SURRATT DEMOCRACY.

[From the Ohio [illegible] Crisis.]

[illegible] be the tool of a radical rump Congress in enforcing upon unwilling people despotic and unconstitutional reconstruction acts [illegible] no more [illegible] him with a [illegible] than they can approve of the acts by which the government of white men is [illegible] and transferred to the control of mongrel negroes and white vagabonds. Democrats who [illegible] to the principles of white [illegible] cannot, without support a mere expediency man, who is all subserviency to arbitrary power, and one of the automaton performances in this [illegible] of reconstruction now enacting in ten States of the old Union. Did he [illegible] to be a party to the crime of enslaving eight millions of white men [illegible] before [illegible] consenting to the infamous acts required of him [illegible] produce a [illegible] effect in his [illegible] not be gainsaid. But no; he is not the man. The Democratic party cannot afford to take any part in the infamous negro equality and white inferiority schemes of the radical [illegible] and, therefore, they cannot endorse, much less elevate, General Hancock to the Presidency. [illegible] Behind this Hancock nomination [illegible] of a murdered woman, the shadow of which may not be distinct, but yet is visible

Mr. Dickens on His Reception in America.—To the Editor of the London Daily News:—Sir Your New York correspondent, in the able letter published on Saturday, remarks that Mr. Dickens was received in the United States "in a way, I believe, he considers cold." The [illegible] which Mr. Dickens had written to his private friends [illegible] this to be a misapprehension In one of them he declares that the greeting accorded to him in Boston was "magnificent," and the impression his New York audiences made on himself and on your correspondent appear to differ totally. "The reception here," (at New York,) Mr. [illegible] writes, was splendid; the audience bright and perceptive, the general delight was most enthusiastic." His correspondence abounds in [illegible] equally strong and equally gratifying.

TO THE NINE PRECINCTS OF YAMHILL COUNTY.

To insure prompt and efficient action in the ensuing canvass, the Union County Committee of Yamhill county deem it expedient and would respectfully suggest that each of the following named persons act as chairmen pro tempore of their respective Precinct meetings to be held February 29th, 1868

2 Hon Jere Tenson South Fork

It is earnestly [illegible] that a permanent organization of the Union party be perfected at that meeting (if not [illegible]) by selecting a Precinct Committee of three to cooperate with the County Committee and with a like committee in each precinct

It is also hoped that such action will be taken by said meetings and by said committees as will *insure the county at the coming elections* to the cause upheld by our country's brave and patriotic defenders, and their friends

POLK COUNTY UNION CONVENTION.

The Union voters of the several precincts of Polk county, are requested to meet on the 29th day of February, A D 1868 to elect delegates to attend a County Convention to be held at Dallas on the 14th day of March ensuing, for the purpose of selecting six delegates to represent said county in the Union State Convention to be held at the city of Salem on the 24th day of March, 1868 and to transact such other business as the Convention in their wisdom shall see proper The precincts will be entitled to delegates as follows, viz

Bridgeport	4	Jackson	4
Luckimute	6	Salt Lake	4
Buena Vista	5	Bethel	6
Monmouth	6	Eola	7
Douglas	4	Dallas	7

The Committee have thought it better, for the purposes of this convention, not to apportion delegates from the new precinct of Ellendale, for the reason that no vote has ever been cast there and its establishment has also affected three other precincts making it impossible to fix the representation of the four precincts upon a satisfactory basis The Committee therefore recommend that the voters of said precinct of Ellendale attend and be allowed to take part in those precincts to which they would have belonged had no new precinct been established. By order County Union Central Committee

H. W. SHIPLEY'S PACIFIC TURBINE WATER WHEEL!

Fig. 1,

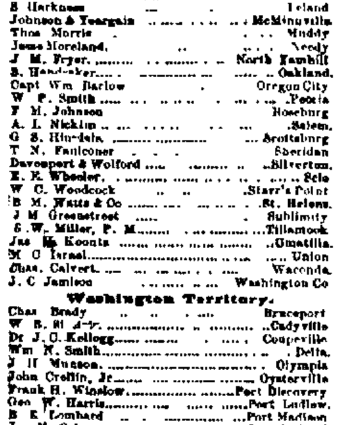

Fig. 2,

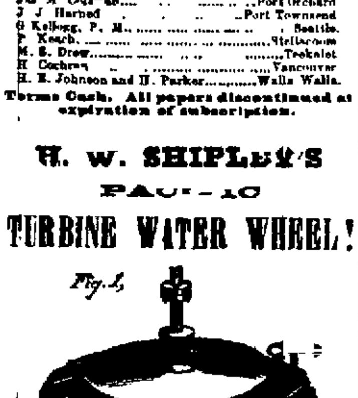

THIS NEW WHEEL, OF WHICH THE ABOVE cut is an illustration, has

FOUR SETS OF BUCKETS,

USES THREE-FOURTHS OF THE WATER TWICE,

Giving at least Twenty per cent more Power than any other Wheel ever invented.

Figure 1 is an axial section of case with wheel inclosed, and illustrates the arrangements for applying the water through a series of openings in the periphery of the case, direct upon the wheel by fixed guides Pivoted gates extend inward toward the opening, which are between their inner ends, and when open, fit closely against the guides, thus offering no obstruction to the inward flow of water The gates are opened and closed by a hand and ratchet wheel, upon which operates a rack segment on a ring which extends entirely around the top of the case, partially revolving the ring from different points. The revolving of the ring opens or closes the gates by means of connecting rods.

Figure 2, a perspective view, shows the three sets of periphery and the radial set of buckets The peculiar construction is such that it uses three fourths of the water twice—something never before achieved in any water wheel The buckets are very shallow and it fine the water to the outer diameter of the wheel After the water exerts all the power that can be obtained on three sets of well arranged periphery buckets, it passes to and is again used upon, the radial set, giving an additional power and producing an increased velocity and steadiness of motion, truly wonderful.

Aware that the new principles of this invention may not be readily comprehended, the inventor has only to say that seeing the wheel work is the most certain way of removing skepticism He will warrant every wheel to perform all that he claims for it By its use many of the now abandoned water powers may be again made the means of adding to the employment and wealth of the country

Manufacture of the Wheel.

The Inventor has made arrangement with the WILLAMETTE IRON WORKS, Portland, for the manufacture of these Wheels

All orders addressed to either

Or H W SHIPLEY,

Will receive prompt attention

Send for Illustrated Descriptive Circulars, and Price Lists.

Mr H W Shipley Sir In reply to your inquiry as to how I like you Pacific Turbine Wheel, I have to say that I have used one over shot and three Leffel wheels—10, 13 and 15 inch diameters When I substituted your 15 inch wheel for the 13 inch Leffell wheel, though unfinished it worked the machinery like a top, using 62 ft of water per minute more than the 13 inch Leffell At your request I subsequently took your wheel out that it might be finished, and then I put in a 15 inch Leffel, but it gave no better power than yours while it used 52 cubic feet more water, per minute. After some months, I replaced your wheel and am still using it with the most satisfactory results I have subjected it to some severe tests For instance while running the circular saw in a log which squared 15 inches, I added the planer with a 9-inch knife, cutting from one-eighth to one-fourth of an inch depth, without in the least slacking the speed After thorough tests of both wheels, I am satisfied that your wheel with gates one eighth of an inch open gives as much power as the Leffel with gates one-third open At half gate your wheel gives double the power of the Leffel at half gate At full gate the power of yours exceeds that of the Leffel by from ten to twelve per cent At quarter gate the Leffel holds no comparison with yours at quarter gate

N B Mr Shipley was not present at either of the trials of his wheel he being sick at the first, and absent from the State, at the second trial

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence or from virus absorbed in the system Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends attend to those who are suffering with any of these horrible health-destroying maladies—see that they are cured for and cured before it be too late Send them immediately to Doct GIBBON physician who has made private diseases a special study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends to avoid the many professed doctors who infest all cities, publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions the consequence of self abuse This solitary vice or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz sallow countenance dark spots under the eyes, pain in the head, ringing in the ears noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs confused vision, blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption night sweats monomania and frequent insanity If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr. G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN,

Persons calling at Dr. Gibbon's office or sending for packages of medicines, may rely upon his assurances of confidential secrecy with implicit faith, and expect no more than to be charged with a fair, and mutually satisfactory remuneration for services rendered considering the circumstances and difficulties of cases rather than a too prevalent and selfish practice of extortion among quacks and pretenders

DOCTOR GIBBON is responsible and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charge

HIRAM SMITH'S

Ophthalmic Panacea!

IN BRINGING THE ABOVE-NAMED NEW REMEDY to the notice of the Public, the Proprietor begs to state a few facts in relation to it, as follows:

It originated in Prussia, where the science of Medicine is thoroughly taught and practiced, but owing to the poverty of its discoverer its wonderful properties were not known beyond the limited circle of his acquaintance in which, however it proved itself absolutely infallible in eradicating disease from the eyes

He immigrated to this country bringing his discovery with him, but seems to have been indifferent to the propriety of giving it general and wide-spread circulation and as previously in his native country, seemed only desirous of using it among his friends and neighbors

The present proprietor was one of those neighbors, and for many years was a witness to its wonderful efficacy, and, after ineffectual efforts to persuade the Inventor to more widely disseminate the knowledge of its virtues finally became himself the possessor of the secret of its preparation

And now, while he does not deny that he hopes and expects to make money by its sale, he must yet lay claim to a desire to benefit his fellows by presenting to them a remedy *which does and will cure where medical science* and all experience have failed

He wishes it to be understood that it will cure *all* diseases of the eye whether of recent or long standing, but its greatest power is exhibited when it is applied to old *Chronic cases* of long standing, which have resisted every other attempt to cure them, and which have been given up as hopeless and past being cured or relieved

He asks those afflicted in this way to give it a trial, and so confident is he of its success that he instructs all his agents TO REFUND THE MONEY IF IT FAILS TO CURE.

It has, within the past year cured cases of GRANULATED LIDS INFLAMMATION &c., of FIVE SIX, NINE FIFTEEN and SEVENTEEN YEARS STANDING evidence of which fact is furnished in the testimony of the following persons living at and in the neighborhood of Harrisburg Linn county

ALEXANDER L WALKER was cured of inflamed eyes of nine years standing Had been treated by eminent physicians during all that time without effect

Mrs MONTGOMERY of Harrisburg had inflamed eyes for over two years For one year they were so bad that she could not work Was finally completely cured by the Ophthalmic Panacea

F. B MOORE of the firm of Moore Foust & Baber of Harrisburg had granulated lids for six years

NATHANIEL BELL of Clackamas county had inflamed eyes—a bad case—for over fifteen years

ROBERT RAMPEY and W D FOLTER of Harrisburg JOHN M HOLLOWAY of Linn County H R WARD, of Lane County were all of them more or less severely, with diseased eyes and were cured by the Ophthalmic Panacea

All the above named persons have given lengthy testimonials to the facts as above stated which may be seen at the proprietor's office in Harrisburg

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of the Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.
